PUBLIC HEALTH

Learn Everywhere

Discover your journey in a program where you’ll amplify your learning, advance your interests beyond the classroom, and maximize your experience.

Our goal is to set you up—and set you apart—with personalized experiences where you apply your learning in the world, every day. Credits from your program dovetail with your Public Health major(s) requirements and give you experiences that get your resume noticed. Choose from among highly-ranked programs offering a range of academic approaches and disciplinary expertise, like:

- Griffith University
- University College London
- University of Auckland
- University College Cork
- University of Winchester
- University of Otago
- Griffith University
- University College London
- University of Auckland

Arcadia Abroad Is Your Ally

- Accelerate your learning, build marketable skills, and network through an internship with one of our internationally recognized industry partners.
- Zero in on the communities, activities, and interests that matter to you and tap into the rich knowledge and connections of our experienced in-country staff.
- Explore different approaches to the education and investigation of public health issues in other countries.
- Develop critical thinking skills and cultural proficiency that will help you succeed in your career.
- Build your resume with an Arcadia Abroad Co-Curricular Learning Certificate—and demonstrate your commitment to learning from diverse cultures and communities.
