2022 - 2023

AUSTRALIA & NEW ZEALAND
Time to explore the world & your potential

Study abroad with Arcadia opens up exciting new worlds to you - yes, a new country, but also new ways of learning both academically and through experiences inside and outside the classroom. Enjoy wonderful times with friends, mentors and teachers you haven’t met yet.

You’ll enjoy the challenge of strong academic courses and you’ll apply that learning in new places, with different people and in cultural situations you would never see at home. You’ll have fun along the way as you share life-changing experiences with other students and locals alike.

By the time you come home, you’ll be enriched and energized with skills, knowledge and credits in your back pocket. Your new level of understanding for how the world works and how people lead meaningful lives will be transformative for you, both personally and professionally. Let’s help you rise to your potential!

Contents:

- Australia
  - pg. 10
- New Zealand
  - pg. 24

For over 70 years, students, like you, from colleges and universities throughout the U.S. have been studying abroad with Arcadia.

- Over 130 programs offering applied learning opportunities in 10 countries
- Wide range of disciplines and program types
- Programs to fit your schedule – from semester to summer to academic year
- Support to broaden access to study abroad – financially, academically and culturally
- Support from Arcadia staff around the world to help you make the most of this fun and unique opportunity
Arcadia lives up to the mantra of “Learn Everywhere.” Part of studying abroad really made me open my eyes to taking lessons at any and all opportunities. It’s not always about the classroom and it is certainly not always about the grade, but it’s definitely about what you can take away from the lesson.”

Rachel Shaffer
Illinois Wesleyan University

Excursions
All programs include guided visits to key places of interest, from historical landmarks and bucket list venues, to key local community hotspots - including many off-the-beaten-track experiences.

Activities & Events
From trying a new sport or joining a club or society, to attending Arcadia-organized social events, there will be many ways for you to bond with other students and feel part of a special time and place.

Volunteering
Many opportunities exist for you to help different organizations give back to local communities or causes.

Résumé Building
Meaningful and challenging experiences add depth to your résumé and show employers and graduate schools you have acquired valuable skills and abilities.

LEADERSHIP
COMMUNICATION SKILLS
INDEPENDENCE  PROBLEM SOLVING
CRITICAL THINKING
RESPONSIBILITY  EMPATHY
CULTURAL AWARENESS

Educating the whole you – what does that mean?

Learn and enrich the whole you – from wonderful academic development to personal and professional growth and fulfillment.

It’s Applied Learning in action – learn as you go and use your skills everyday in different situations so when you come home you have a whole new level of confidence and ability.
Program Finder

What's Included

All programs from Arcadia offer the highest standards in education, student support and co-curricular learning beyond the classroom.

- Program tuition
- Housing
- Co-curricular activities such as excursions, cultural activities and sporting events
- In-country orientation by Arcadia staff
- Arcadia University transcript
- Personal guidance and logistical support before you go and during your stay
- Personal academic advising
- Health and accident insurance
- Health, safety and wellness guidance and support from resident staff in-country
- Co-curricular Learning Certificate: official recognition for learning you achieve outside the classroom
- Opportunities to blog and talk to other students on your program before you leave for your destination

Financial Aid

- You may still receive financial aid from Arcadia even if you already receive aid from your home school.
- Our staff can also help you process other financial aid such as federal (Pell Grants, Stafford or PLUS Loans), state and other forms of assistance.

Arcadia offers need-based scholarships to eligible applicants

Around 70% of students who apply for aid receive some sort of award

SCHOLARSHIPS

More than one way to fund your study abroad dream!

studyabroad.arcadia.edu/scholarships

Our staff can also guide you towards other scholarship opportunities for:

- Students studying on a particular program or in a specific country
- Specific academic focus areas
- Underrepresented student populations
- General study abroad scholarships offered by foundations and philanthropic organizations

Arcadia Abroad’s Support of Diversity, Equity and Inclusion

In support of our mission to prepare students for a global society, Arcadia Abroad is dedicated to educating every member of our community while working to create opportunities abroad that are inclusive of race, sex, sexual orientation, gender identity and expression, age, national origin, socioeconomic status, religion and abilities.

We are committed to fostering a welcoming environment for our entire global community - students, staff, faculty and beyond. Diversity, equity and inclusion are woven into program development and delivery.

Learn more at studyabroad.arcadia.edu/diversity

We are committed to providing students from diverse backgrounds opportunities to learn and grow by offering globally enriching and engaging experiences. This includes:

- training our staff and faculty to support a diverse student population
- creating a welcoming and inclusive community around the world
- building programs and initiatives centered on access and equity
- amplifying diverse voices in our curriculum and instruction
- working toward systemic change in our policies and procedures

Hear from Other Students and Alumni

What our students say

Check out our student blogs to hear from current and past students overseas.

Get a real feel for the adventure as it happens.

Also, try our Center Blogs for more information about what events, excursions and social connections our center staff provide.

Alumni Ambassadors

Contact an alumni ambassador anytime with your questions or to hear their first-hand experience of their program abroad with Arcadia.

Find alumni from your institution; talk to someone about a specific location; discuss topics such as the LGBTQIA+ experience abroad, academic questions, how to get around – whatever’s on your mind.

Support services & mentoring

Our staff are here to support and mentor you through your entire experience, so you can make the most of your time abroad - from ensuring a smooth application process and mentoring to the practical everyday tasks of managing life abroad.

Health, Safety and Wellness Abroad

Student safety and security is one of our core values. Our Director of Health, Safety and Security leads our staff at home and abroad to care for you with the support of our Student Services team. Our approach to health and wellness prioritizes student learning in a safe and responsible way.

- We provide thorough pre-departure and on-site orientations to educate you about how to stay healthy and safe in your host country and city.
- We provide personalized support for students who require disability accommodations or need ongoing medical or mental health care to be successful while abroad.
- Medical insurance, political security and natural disaster evacuation coverage is included in program fees for all students throughout the duration of their overseas programs.
- We monitor world events and operate under the latest best practices in international risk management.
- Through years of experience we have established a wide network of local contacts overseas that allow us to stay well informed on the ground and plan effectively.
- We provide 24/7 support and keep parents and partner institutions informed about evolving situations occurring in country and any emergencies.

From providing safe and secure housing and access to health care and wellness resources to providing effective and prompt resolution of emergency situations, our team protects our students’ welfare abroad at all times.

We’re here to help

While we are prepared to help with major political and environmental events, most often the types of situations with which we assist are minor illnesses, challenges adjusting to a new environment or lost passports.

Build Your Own Program

Can’t find the exact program you need? Then build your own! Start by looking at what you want to achieve from your time abroad. Perhaps you need an internship to bolster your résumé; or maybe you need a research component or have specific credit requirements such as a language.

Now you can choose a program in the location you want and build out from there. Add on what you need, be it the right course combination, a unique research assignment or that perfect internship placement. Make your program work for you and grasp every opportunity!

And don’t worry, our program managers can help build the program that best suits you.

Look for this symbol to find programs to make your own.

Your Program

Customize your program to meet your exact needs and get even more bang for your buck. You decide what goes in to your program!

- Internship
  Gain work experience while living abroad

- Research
  Complete your own research project abroad

- Cornerstone Course
  Learn about cultural context

WHY AUSTRALIA WITH ARCADIUS?

Australia is popular with students from all over the world for many great reasons - from its unique environment with natural wonders such as the Great Barrier Reef and untouched beaches, to its strong academic tradition, state-of-the-art science facilities, deep-rooted artistic edge, cultural diversity and sporting prowess. Australia’s indigenous people have the world’s oldest living culture and their story is at the heart of understanding the multicultural society we see in Australia today. The country’s links to Asia and the Pacific Rim create an exciting dynamic in world trade and international affairs.

Our staff in Sydney, Brisbane, Gold Coast and Melbourne will support you throughout your stay in Australia and help you uncover what this continent holds for you both inside and outside the classroom.

- **Sydney** - With its magnificent harbor, pristine beaches, modern skyscrapers and multi-cultural population, you’ll quickly see why Sydney is a popular destination.
- **Melbourne** - Many times voted world’s most liveable city, Melbourne offers a coastal, cosmopolitan and artistic city experience surrounded by terrific natural scenery.
- **Brisbane** - Australia’s third largest city mixes modern bustling streets with classic Queenslander architecture and a vibrant, multi-cultural lifestyle.
- **Gold Coast** - This fast-growing urban area boasts miles of beaches, lakes and rainforests along with urban life, art and culture.
- **Townsville** - This small city enjoys a tropical climate, relaxed city life and proximity to many natural attractions such as the Great Barrier Reef.

Beyond the Classroom

We want you to
learn as much outside the classroom
as possible in different ways.

Orientation
Get to know our staff and the other students on your program, as we prepare you with everything you need to know, from health and safety to money matters, and local travel tips and Aussie slang.

Volunteering
If you wish to get involved in helping charitable organizations in your area, our staff can help, showing you many ways in which you can engage meaningfully with local communities.

Events/Activities
Our staff organize many visits to key places and events, most of which you wouldn’t find on your own, such as cafés, walking tracks and social events.

Excursions
From exploring ancient cultural sites to surfing along the Australian coast, our excursions range from those included as part of your course, to creative, off-the-beaten-track experiences. From tasting amazing coffee at local cafés to hiking up spectacular viewpoints, our excursions across Australia explore context and use their geographical location as an open classroom.

Magnetic Island
Swim in the turquoise blue Coral Sea, interact with Australian wildlife, kayak and hike the spectacular island coastline.

North Stradbroke Island
Learn about indigenous culture, surf, spot sea turtles and dolphins on a coastal hike and kayak on Brown Lake.

The Grampians
Hike this expansive national park, exploring its beauty and stunning vistas.

Broken Bay
Experience this isolated headland with breathtaking views of the Hawkesbury. You’ll get to enjoy beach, river and bush setting all in one.
Arcadia's Team in Australia

[studyabroad.arcadia.edu/australia](studyabroad.arcadia.edu/australia)

Arcadia has a strong history in Australia, delivering study abroad programs down under since 1996. Today, with 13 programs during semester and summer terms throughout Australia, including direct enroll, internships and research options, we cater to a wide range of academic and personal student goals.

Our staff and faculty in Australia are based in Sydney, Brisbane, Gold Coast and Melbourne, supporting our students around the country 24/7. At orientation and throughout your program, we will mentor, support and encourage you to make the most of your exciting time here.

You can experience all Australia has to offer through our internship programs, Arcadia-led field studies programs, or by studying at one of our many partner universities. Students are supported by trained Arcadia staff who organize exciting and culturally eye-opening excursions throughout the semester to show students the cultural diversity and depth of this fascinating country.

Keep up with the latest news on what’s happening with our students in Australia on the Arcadia Australia blog:

[studyabroad.arcadia.edu/blogs/arcadia-australia](studyabroad.arcadia.edu/blogs/arcadia-australia)

Housing

Housing options vary depending on your program. Most student residences feature apartment-style living with single or twin bedrooms and shared kitchen, living and bathroom facilities. Wherever your location, you'll have easy access to food stores and amenities.

- Residential colleges offer you the unique opportunity to live with locals, complete with tutoring programs, sports teams and many other services, activities and clubs. Most residential colleges include a meal plan. The dining room is the perfect place to foster new friendships.

- Student apartments or flats, whether on-campus or off, afford a high degree of independence. You will typically live with other American or international students and have access to shared kitchen facilities and a communal living area.

Arcadia in Sydney Summer

Spend summer studying in the exciting, beautiful and cosmopolitan city of Sydney, where the multicultural population gives the city a dynamic, colorful and friendly vibe. With an accessible GPA requirement, fascinating courses taught by Arcadia faculty and an emphasis on learning outside the classroom, this program promises to be a summer to remember.

- You’ll study two courses from a choice of three. The courses focus on the interwoven political, economic and global interests of Asia and Australia; on environmental policy and ethics; and on issues facing indigenous and settled Australian communities.
- Enjoy a variety of Arcadia excursions as part of your study. Past excursions have included hikes in national parks and performances at the Opera House.
- You’ll have support from Arcadia staff and faculty the entire time to ensure you make the most of your experience both academically and personally.
- This program also includes a weekend excursion to the Blue Mountains. This captivating World Heritage Site is made up of 1 million hectares of tall forests, sandstone cliffs, canyons, waterfalls and stunning vistas. Your adventure will give you time to reflect on life, the beauty of the natural world and your place in it.

Sydney Internship Program Summer

Why not spend summer gaining valuable professional and leadership experience and earning credit while studying abroad in Sydney? You’ll have mentoring from faculty for the academic side of your program and from a workplace supervisor to ensure you are meeting your own professional and personal goals. This program will be a compelling addition to any résumé.

- You will take two courses with Arcadia University; your internship and a choice of:
  - Global Economics: Australia in the Asian Century
  - Environmental Policy & Ethics
  - Nations: Aboriginal & Australian
- This program also includes a weekend excursion to the Blue Mountains. This captivating World Heritage Site is made up of 1 million hectares of tall forests, sandstone cliffs, canyons, waterfalls and stunning vistas. Your adventure will give you time to reflect on life, the beauty of the natural world and your place in it.

POSSIBLE PLACEMENT OPTIONS INCLUDE:
Advertising; architecture; arts; business operations; entrepreneurial start-ups; environment & sustainability; film & TV; financial services; health; hospitality; journalism; law; marketing; non-governmental organizations; politics; psychology; public relations; sport; and theater.

Macquarie University

This campus in North Sydney offers flexibility and a change of pace from the downtown area with a thriving student body and active campus life. Macquarie is strong in the arts and offers an AACSB-accredited business school. It is particularly known for its anthropology and Australian and indigenous studies courses.

- Internship Option: Through Arcadia, you can also choose to add an internship placement to replace one course option while you study at Macquarie, to gain knowledge and experience to boost your résumé.
University of New South Wales

This world-renowned institution has a large, lively campus in the suburbs of Sydney and attracts high-achieving students from all over the world. It is especially strong in economics and business (with an AACSB-accredited business school), engineering (all programs accredited by Engineers Australia) and computer science.

- **Internship Option**: You can choose to complete an internship, instead of one course at UNSW, if you want to add practical international experience to your semester study.

  [studyabroad.arcadia.edu/unsw](studyabroad.arcadia.edu/unsw)

---

University of Sydney

Australia's oldest and one of its most prestigious universities, University of Sydney offers a range of strong academic courses with an Australian perspective.

- **Internship Option**: Through Arcadia, you can also choose to include an internship placement in place of one course to gain knowledge and experience to boost your résumé.
  - The business school is AACSB-accredited and offers a wide range of business coursework.

  [studyabroad.arcadia.edu/univ-sydney](studyabroad.arcadia.edu/univ-sydney)

---

University of Queensland

As one of the elite top five universities in Australia, University of Queensland offers excellent teaching and curricula, especially in STEM fields such as engineering, biotechnology and pre-med courses. Its business school is also AACSB-accredited.

Brisbane is a beautiful riverside city. Students studying at UQ often catch the ferry to campus and they are only a short train ride away from some of Australia’s most famous beaches.

[studyabroad.arcadia.edu/univ-queensland](studyabroad.arcadia.edu/univ-queensland)

---

Queensland University of Technology

Queensland University of Technology (QUT) is a dynamic university that offers creative, multi-disciplinary approaches to social sciences, humanities and performing arts in addition to highly innovative technology courses. It’s perfect if you are majoring in media, creative design, fashion, business, education, engineering or IT. The business school is AACSB-accredited.

[studyabroad.arcadia.edu/qut](studyabroad.arcadia.edu/qut)

---

University of Technology Sydney

University of Technology Sydney has one of the most competitive communications and journalism programs in Australia and is located in the heart of Sydney's media district. It is also a leader in technology and has an AACSB-accredited business school.

- **Internship Option**: Through Arcadia, you can choose to add an internship in place of one course at UTS, to gain international professional experience for your résumé.

  [studyabroad.arcadia.edu/uts](studyabroad.arcadia.edu/uts)

---

STEM Summer Research - Brisbane

This summer research program is perfect if you want to gain a practical, focused research experience in a unique environment over the summer. Projects in engineering, biology, science education and chemistry are available. University of Queensland is one of the top universities in Australia and has excellent science facilities and laboratories, including its own research stations on Heron Island and North Stradbroke Island, which open up unique opportunities for critical research.

Studying in Australia

BRISBANE, AUSTRALIA
Bond University
Located on the famous Gold Coast, Bond offers a stunning location, close to beaches, temperate rain-forests and the bustling city of Brisbane. As a medium-sized, centralized campus, with small classes and the lowest student-teacher ratio in Australia, Bond has a familiar feel for American students. Bond also consistently achieves top ratings for student experience.

- Bond’s academic calendar conforms to the U.S. semester system so you can study late August-December or January-Late April, keeping your summer free.
- Courses tend to be professionally-based, with strengths in business (AACSB-accredited business school), communications, media studies, information technology, health sciences and sports management.
- About half of Bond’s student body is made up of international students, giving campus a truly diverse and vibrant feel.

Griffith University
Although a large university, Griffith encourages close-knit learning environments and cultural integration in its campuses: two wooded locations at Nathan and Mt. Gravatt; the Gold Coast campus nestled between beaches and rainforest; and South Bank, located in the culture and arts hub of Brisbane. The university’s major strengths are in the humanities and environmental science and policy.

- Choose from a wide range of campus experiences, academic courses and intercultural learning in locations that make the most of the laid-back, outdoors lifestyle of Queensland.
- The Griffith Mates program enables current Australian and international students to help new students like you settle in.
- Engage with the culture through a service-learning, community internship course available with 50 hours spent in placement.

James Cook University
If the natural environment is what attracts you to study abroad in Australia, then you should consider James Cook University (JCU). The unique location of JCU allows for world-class studies in marine biology, biodiversity, tropical environmental studies, earth sciences, tropical health and tourism.

- JCU is consistently ranked in the world’s top three for research performance in the areas of ecology and environment, plant and animal sciences and geosciences.

University of Melbourne
This popular and prestigious institution has ivy-covered walls, state-of-the-art facilities and a convenient central location. Melbourne is consistently ranked as one of the top universities in Australia and is especially famous for its medical, engineering and scientific research and the university’s business school is AACSB-accredited.

The Victorian College of the Arts (VCA) is a top school for art, photography, music and dance.

WHY NEW ZEALAND WITH ARCADIA?

Situated on two beautiful islands anchored in the South Pacific, New Zealand offers fascinating traditions, strong academic institutions and magnificent natural scenery. It has a temperate climate; strange Middle Earth landscapes that include bubbling mud pools, glaciers, golden sand beaches and snow-capped mountains (geology and film students go crazy); fascinating coursework opportunities; and many adventure activities on offer (commercial bungy jumps and zorbing were invented here). Although New Zealand is English-speaking, and the majority of the population is of European descent, the nation is fiercely proud of being bicultural and there is a strong Māori presence in all aspects of society.

You are going to love our staff in New Zealand who will show you the ropes (literally), take you on many educational adventures and support you throughout your program. Arcadia’s excursions, events and activities draw you into everything this magical country has to offer. Arcadia students in New Zealand tend to bond very well with each other and our staff, creating a close-knit, friendly community that lasts far beyond the program and helps you achieve your personal and academic goals.

Auckland

- This ‘City of Sails’ has an international, maritime, energetic atmosphere that draws students from around the world.

Wellington

- On the southern tip of the North Island, this political and cultural capital offers enviable café culture and a passion for film and the arts.

Christchurch

- ‘The Garden City’ is a picturesque, leafy city surrounded by ocean and mountains and is the central hub of the South Island.

Dunedin

- Surrounded by rolling countryside, this is a real college town with a fun vibe and easy access to Lord of the Rings landscapes.

LEARN EVERYWHERE.
**Beyond the Classroom**

We want you to **learn as much outside the classroom as possible in different ways.**

---

**Orientation**

Get to know our staff and Kiwi culture as we prepare you with everything you need to know, from health and safety to how to understand the Kiwi accent.

---

**Volunteering/Service Learning**

If you wish to get involved in helping charitable organizations in your area, our staff can help, showing you many ways in which you can engage meaningfully with local communities.

---

**Events/Activities**

Our staff organize many visits to key places and events, most of which you wouldn’t find on your own, such as sporting, music or social events.

---

**Self-exploration**

This program fosters independence, confidence, leadership and a sense of exploration. You’ll have many opportunities to explore on your own or with other students.

---

**Excursions**

From experiencing the Haka, a traditional ancestral war cry and dance from the indigenous Māori people, to kayaking the serene waters of Abel Tasman National Park, or exploring Middle Earth sets from Lord of the Rings, our excursions range from those included as part of your program, to creative, off-the-beaten-track experiences. From local sporting events, to viewpoints only locals know, our excursions throughout New Zealand explore context and use their geographical location as an open classroom.

---

**Sample Excursions**

studyabroad.arcadia.edu/excursions

---

**Waikato District**

Three days of surfing, caving and exploring (University of Auckland students)

---

**Queen Charlotte Sound**

Hike and kayak the deep green waters of the Marlborough Sounds (Victoria University of Wellington and University of Canterbury Fall students)

---

**Abel Tasman National Park**

Three-day weekend of hiking along golden sand beaches and kayaking in turquoise waters (Victoria University of Wellington Spring students)

---

**Queenstown Weekend**

Three days of hiking and adventure in New Zealand’s most scenic resort town (University of Canterbury Spring students and University of Otago Spring and Fall students)

---

Keep up with the latest news on what’s happening with our students in New Zealand on the Arcadia New Zealand blog: studyabroad.arcadia.edu/blogs/arcadia-new-zealand
Regional Director of Australia and New Zealand

“I am a Kiwi from Auckland and I was definitely curious about the world from an early age. At 19 I left New Zealand in the middle of my B.A. (Auckland University) to work and travel around Europe. Two years later I returned to New Zealand and completed my B.A. in calculus and German, then taught English in Japan for a year, traveled throughout South East Asia and India for seven months and then hitchhiked on my own for six months down from Egypt, to Sudan and from Kenya to Tanzania and Uganda. Determined to be a fabulous English language teacher, I then completed a Grad Dip TESL at Sydney University and then an M.A. in Applied Linguistics at Victoria University of Wellington. I was immediately offered a job as a lecturer in English language at Basel University in Switzerland and so moved there with husband and child in tow. Our second son was born in Basel and we loved being based in Europe, but after four years, yearnings for family and the wide open spaces of the New Zealand landscape were too much. I took up a learning support role at UNITEC in Auckland and then moved to Queenstown in the South Island where I have been ever since overseeing the Arcadia programs in New Zealand. Being part of someone else’s exploration of the world is extremely rewarding. I love my job.”

Jane Gunn-Lewis received her B.A. from the University of Auckland and her M.A. from Victoria University Wellington. Prior to working with Arcadia, Jane provided learning support for students at UNITEC Institute of Technology in Auckland and was a lecturer at Basel University in Switzerland.

Assistant Director of New Zealand Programs

“My journey with Arcadia started as an undergraduate excited to study abroad in Australia. While there, I made my first trip to New Zealand and immediately knew I would be back. My study abroad experience led me to pursue a career in education abroad. After graduating with my Bachelor’s, Arcadia welcomed me back, and I have had several different roles at The College of Global Studies. My time at Arcadia has led me down an unbelievable path to Wellington, where I am able to share with students all of the wonderful sights and opportunities New Zealand has to offer.”

Caitlin Barnett received her B.A. in international business and M.A. in international public relations from Arcadia University. Prior to working in New Zealand, she was based in the U.S. and advised for programs in Australia, New Zealand and STEM Summer Research.

HOUSING

As an Arcadia student, you are guaranteed housing for your program. In New Zealand you will live in student apartments or flats, enjoying a high degree of independence and a location that is within easy reach of food stores and amenities. You will enjoy a private room and typically live with other American, international or New Zealand students and prepare your own meals in shared kitchen facilities.

“...I couldn’t have picked a better university or program, it was the perfect place for me and I found a whole different side of me that I didn’t know existed.”

Taylor Smith
Austin College, Victoria University of Wellington
University of Auckland

Established in 1883, the University of Auckland is New Zealand’s largest and highest ranked university, with a thriving international student body. There are hundreds of course options and a focus on STEM studies such as biology, marine studies and engineering, as well as business and Māori and Pacific studies. Field study options available in some areas give you the opportunity to apply the concepts you are learning in the classroom to the real world.

- The AACSB-accredited business school is located in the ultra-modern, purpose-built Owen G. Glenn Building.
- The university is home to the Unleash Space, a dedicated space on campus for makers, creators, builders, fabricators, and designers that is free for students to use.
- Located right downtown, the campus is nearby beautiful beaches and running trails, but still in the heart of the city.

Victoria University of Wellington

Wellington is the vibrant, political and cultural hub of New Zealand, placed on a beautiful harbor where the Australian and Pacific tectonic plates meet. This unique combination of place and culture is reflected in the wonderful range of course offerings, and the university is a favorite for both domestic and international students, especially those studying in the areas of film, literature, politics and international relations, gender studies, earth sciences, Māori culture and language, music, theater and creative writing.

- The campus rubs shoulders with parliament, NGOs, key national research and scientific organizations, as well as Weta Workshop (the creators of Lord of the Rings’ visual effects), Te Papa (the Museum of NZ), and the New Zealand Symphony Orchestra.
- Wellington is buzzing with cafes and restaurants, boutique galleries, independent theaters and cinemas.

University of Canterbury

If you want to combine a strong academic program on a friendly, leafy campus with a lot of outdoor activities and connections to the local community, then Canterbury could be for you. The wide range of courses includes: geology, speech therapy, engineering, forestry, astronomy, biological sciences, business (AACSB-accredited) and entrepreneurship. Students who are looking for an international community in a suburban setting will thrive here.

- Internship and service-learning courses are offered for humanities, social science and communications students. Placements include: radio presenting, NGOs, and projects focused on community support in the Christchurch area.
- The university has five field study sites across the South Island, providing opportunities for students of astronomy, geology, environmental research and marine research.

University of Otago

This very popular university attracts students from New Zealand and other countries, giving the campus a welcoming and social feel. Otago offers a wide range of courses, but perhaps it is best known for natural sciences. Many departments offer field study and laboratory elements such as environmental science, geology, and marine biology. It has one of only two medical schools in the country and is very strong in neuroscience and psychology. Political studies, exercise science and nutrition are other areas of excellence.

- Students live in houses dotted around the periphery of the campus with three or four flatsmates including a Kiwi Host to help you valuable information and insight into life in Dunedin.
- The beautiful surrounding natural environment also provides wonderful outdoor activities, from a local penguin reserve to lakes and fjords. Nearby Central Otago is the starting point to many of the ‘Great Walks’ including the Kepler, Routeburn and Milford Tracks.

University of Wellington

Established in 1883, the University of Wellington is New Zealand’s largest and highest ranked university, with a thriving international student body. There are hundreds of course options and a focus on STEM studies such as biology, marine studies and engineering, as well as business and Māori and Pacific studies.
