Purpose of the Course
This course provides you with an opportunity to reflect upon the service you are providing to a Namibian organization and to critically analyze the role of this organization while carrying out an internship in an organization that promotes social change and/or development. You are expected to complete a minimum of 112 hours of hands-on work experience. You will also attend orientation sessions and weekly seminars in which you will discuss and analyze your experiences with other students and faculty members.

Internships aim to provide you with real-life, meaningful experiences, which by their very nature force critical thinking. Most likely you will encounter events which conflict with your assumptions. Incidents may arise which challenge your competency or understanding. These experiences may create perplexity or dissonance, but with reflection, they are often the beginning of a great deal of learning.

There are three basic components to an effective internship:
● The first is sufficient preparation. This includes setting objectives for your personal learning as well as setting common goals with your host organization.
● The second component is simply performing service by working closely with your Namibian counterparts to meet both your objectives and their requests. A successful internship largely depends on the level of guidance provided by the internship organization as well as your ability to participate as fully as possible.
● The third part is the continual analysis of your experiences, through discussion, reflection, writing in your journal and oral presentations.

A major aim of the CGEE internships is to integrate practical work experience into your academic curriculum. Issues related to the history of Namibia, the political system, ethnic and racial challenges in the country, as well as development will most likely emerge throughout your internship.

The practical experience provides the structure to synthesize student coursework with reality. It also offers the opportunity to use newly-acquired skills and knowledge in a cross-cultural setting.

Unit 2: Initial Reflections
Teaching Methodology
The internship is the core of this course. I view the in-class sessions and assignments as a means to support and deepen knowledge gained from the internship experience. I expect you to dedicate yourself to your host organization, developing skills and synthesizing experiences in order to critically examine information and relate it to learning from other classes and previous perceptions. This class is not meant to solely provide service to an organization; it is also interested in exploring questions and themes that arise from the internships, while focusing on professional development skills.

Teaching strategies include 112 hours of service to an organization, discussion sessions, oral presentations, journaling, individual meetings, research paper and skill development workshops.

Course Requirements
A major component of interning is developing professional work skills. As such, assignments will be graded according to a professional standard. As such, assignments will be marked down significantly for spelling and grammar mistakes, lack of style and professional polish, lack of readability, poor presentation style and inappropriate dress, etc.

1. Internship Learning Agreement Plan and Reflection on Supervisor meeting:
   Topic: All students must complete an Internship Learning Agreement Plan in which they identify the following: a) at least two concepts/theories/ideas from their major or minor that are related to the internship setting; b) at least one professional work skill to enhance or apply in the internship setting; and c) at least one personal learning goal.

   You will review the learning agreement plan with your internship supervisor and compare it to the goals of the host organization/supervisor. When discussing plans with your supervisor, be sure to talk about ideas for your independent project assignment. After this meeting, you must write a 2-3 page reflection paper on the outcome of the meeting and the working relationship between yourself and the host organization/supervisor. In addition, this reflection should include answers to the following questions: What are some of your concerns about this internship? What would happen if they came true? What might you do to help ensure that they do not come true? How could you maximize learning even if they came true? What steps do you need to take now to ensure a positive learning experience? Both the Internship Learning Agreement Plan and Reflection on Supervisor Meeting should be turned in together.

   Format: Learning Agreement should be in outline or table form similar to what is shown on the handout. The reflection paper should be in journal form and 2-3 pages typed.

   Grading:
   Learning Agreement 0-100%
   ● Thorough response to the assignment
Reflection Paper 0-100%

- Thorough response to the assignment
- Demonstrates the complexities of the issues and an understanding of the ways in which social and personal issues interrelate with each other
- Generates critical questions and ideas relevant to the topic
- Honest and thoughtful discussion of personal thoughts and feelings
- Form (Is it well organized? Is there a clear thesis and/or articulation of main points? Are there smooth transitions between paragraphs and ideas? Is the grammar accurate? Spelling?)

2. Internship Journal/Letter:

   **Topic**: Write a letter or article giving advice about your internship to future students. What do you wish you had known or done differently? What do you see as potential pitfalls and how might they be avoided? Do you have any tips about working with this organization? This is a reflective assignment that may include personal observations, issues around intercultural communication, and awareness of your own professional development and exploration of any questions that were raised for you by the experience.

   **Format**: 1-2 pages in an article or letter form

   **Grading**: 0-100%

4. Résumé:
   **Topic:** You will write and revise your résumé by the end of the internship, including new experiences and skills learned during the internship. The revision of the resume should be based on notes from class on how to write a good résumé.

5. Internship Site Project for Host Agency, Hours Worked Log and Final Reflection on Learning Agreement Goals:
   **Topic:** Each student must complete an internship project that will be of on-going service to the host agency. The specific project should be determined together with the site supervisor and be designed to meet the needs of the agency. Examples of projects include the following: a manual for future volunteers or interns; a mural completed together with members of the community; an article or series of articles published in the newspaper; children’s books written and illustrated by the intern for use in the school where the intern worked. The reflection on your learning agreement goals, description of your site project and summary of your work at the host agency should be a 2-3 page (double spaced) typed paper. Your hours worked log should be filled in weekly and signed by your supervisor as you go along. We may ask to see them at any point during the semester.

CGEE Grading Policy and Late Assignments
You must submit assignments on time. If you need an extension, you must talk to us in advance to negotiate a new deadline. If you have not been given an extension in advance and you turn in a late assignment, you will be docked half a grade. If you are more than one week late, you will be docked a full grade. No assignments will be accepted more than two weeks after the original deadline; a “0” will be given after that. Assignments due near the end of the semester will not be accepted after the last day of the semester.

Re-writing Assignments
If you receive a grade of C- or lower, you may revise a paper as long as you resubmit it within one week of the date it was returned to you. Your final grade will be an average of the two grades.

Augsburg University Honesty Policies
You are expected to follow the Augsburg University Honesty Policies. We assume that you have read the honesty policy, understand it, and are following it. Except when the assignment expressly encourages group work, it is assumed that all course work will be your own. You may not copy other students’ work. The first occurrence of plagiarism will result in the failure of the assignment. A student who commits plagiarism a second time will fail the course.

Students’ Rights and Responsibilities
Students with formally diagnosed learning or physical differences have legal rights to course modifications. Those who qualify should identify themselves to the instructor as soon as possible in order to obtain extra assistance.

Accommodation and Adaptation
Augsburg University is committed to providing an environment where all students have the opportunity to equally participate in the academic experience, including students with disabilities. Students with disabilities have rights as determined by federal and state laws which require institutions to provide reasonable
accommodations for the student's disability in order to afford an equal opportunity to participate in the university's programs, courses, and activities.

Non-Discrimination Statement
Augsburg recognizes that our individual differences can deepen our understanding of one another and the world around us, rather than divide us. In this class, people of all races, ethnicities, gender expressions and gender identities, religions, ages, sexual orientations, disabilities, socioeconomic backgrounds, regions, and nationalities are strongly encouraged to share their rich array of perspectives and experiences. If you feel your differences may in some way isolate you from Augsburg’s community or if you have a need of any specific accommodations, please speak with the instructor early in the semester about your concerns and what we can do together to help you become an active and engaged member of our class and community.
