Where will study abroad take you?

Learn and enrich the whole you – from wonderful academic development to personal and professional growth and fulfillment.

It’s Applied Learning in action – learn as you go and use your skills everyday in different situations so when you come home you have a whole new level of confidence and ability.
Arcadia lives up to the mantra of “Learn Everywhere.” Part of studying abroad really made me open my eyes to taking lessons at any and all opportunities. It’s not always about the classroom and it is certainly not always about the grade, but it’s definitely about what you can take away from the lesson.”

About the importance of understanding difference in today’s globalized economies and societies? How will this experience help you build your résumé and shine with employers and graduate schools?

“What better way to integrate into the daily life of a city than to join its workforce? Above and beyond developing skills for your career, you’ll have an insider’s view into local culture. Imagine all you’ll learn from your commute, from office chatter about local politics, and even from your lunch breaks or happy hours with co-workers!”

- Dr. Andrew Law, Academic Dean, The College of Global Studies, Arcadia University.
